

Human values and
professional ethics

**Dhing College has a certificate course
for students on human rights and
ethical values to make them aware
about the constitutional values,
rights, duties and responsibilities**

DEPARTMENT OF POLITICAL SCIENCE

Dhing College, Dhing, Nagaon, Assam.

Name of programme: Certificate Course on Human Rights Education

Organized by

Department of Political Science,

Dhing College, Dhing, Nagaon, Assam.

Sponsored by

University Grants Commission, New Delhi

Introduction

Education is necessary to develop human personality and it is helpful to strengthen human rights and fundamental freedom of the individual. Human rights belong to all human being at all times and in all places. These rights are inherent in human nature and all are equally entitled to human rights without any discrimination in the name of nationality, place of residence, sex, national or ethnic origin, religion, language, or any other status and without which human being cannot live as human beings. These are essential conditions for our full development as well as for the use of our human qualities, intelligence and conscience and for satisfying our needs and interest.

Aims and Objectives of the Programme

The basic objectives of these programmes are to give a platform to the students and insights into working for promoting human values and their rights. Knowledge is the best defense for protecting and enjoying the rights. Human Right Education may be considered as human rights itself. It is not only about human rights, it is also for human rights. It makes a man committed to the Universal Declaration of Human Rights adopted by UN General Assembly on 10th December 1948. This education asserts the responsibility of an individual to respect, protect and promote the rights of all people. It also promotes democratic values in the society.

Moreover, it aims to do the following:

- Enhance the knowledge and understand the crucial theme of human rights as it may help to provide information about human rights and mechanisms to protect those rights.

- Foster tolerance, respect, solidarity, and responsibility by developing values, beliefs, and attitudes to promote the human rights culture.
- Develop awareness on human rights so that one can easily interpret the social and political reality. It will encourage people to prevent human rights abuse and defend human rights.
- Develop skills for protecting human rights.

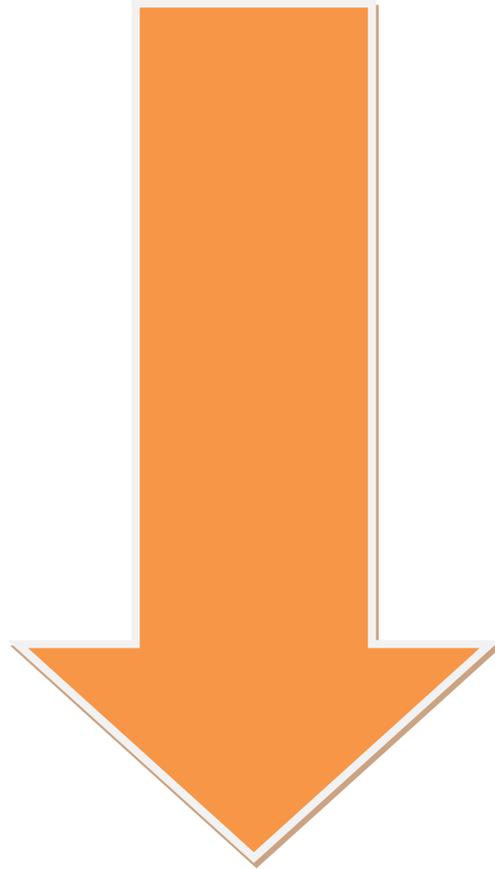

On this backdrop the department of Political Science of Dhing College has conducted various activities under this scheme for promoting human values and ethics among student community as well as in society.

Name of activities conducted under this scheme

1. Certificate Course for students of all disciplines (6th month duration).
2. Awareness programme in surrounding villages and schools of Dhing College.
3. Lecture programme for students by inviting renowned resource person.
4. Observed International Day relating to Human Rights like International Women's Day, International Human Rights Day etc.

Green and Environmental Friendly Campus Initiatives taken by Dhing College

- A large number of faculties of the institution use their personal vehicle. Many of the members of the faculty are encouraged to do vehicle pooling to reduce the vehicular usage and pollution.
- A small section of the students and staff use public transport also.
- Vehicles are parked away from the academic buildings to reduce the sound and air pollution.
- A small section of non-teaching staff use bicycles for mobility within the campus and nearby.
- Different types of dustbins are provided on campus to collect the plastic for careful disposal
- The entire campus is well maintained with a rich collection of trees and plants that make the environment carbon dioxide free and to maintain inmate's good health.
- The campus is enriched with greenery of almost half of the area which includes landscapes with grass, trees and ornamental trees by maintaining biodiversity.
- The landscaping is made brilliantly to bring aesthetic sense and ambience to the campus.
- LED bulbs were used for newly constructed buildings and some of the incandescent and fluorescent tube lights are replaced with LED bulbs. Majority of the class rooms, laboratories, administrative blocks, computer centers, libraries, seminar halls and staff rooms were provided with LED lighting system which are supposed to be the energy efficient. Now, the power consumption through lighting system about 20 percentage is met by LED bulbs.
- Institution has organized outreach activities on green practices for the benefit of society.
- Institute conducts green and environment audit annually to enhance green practices
- Institute conducts energy audit annually to enhance green practices

SWACHH BHARAT ABHAYAN INITIATED BY DHING COLLEGE NCC AND NSS UNIT

The Swachh Bharat is a country wide campaign popularised by the Prime Minister Narendra Modi. The National Cadet Corps has been a major part of the Swachh Bharat Mission initiative and the NCC Cadets have been carrying out these activities as part of social responsibility and community development. The activities carried out by the cadets were Cleanliness drive at School or College campus, cleaning of statues, Cycle Rally, Wall postering etc.

The cadets of Dhing college Ncc unit is actively involved in such activities. Our cadets have organised a Cleanliness drive in the college campus.

REPORT ON CELEBRATING WORLD EARTH DAY AT DHING COLLEGE

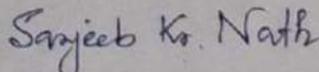

Earth Day is an annual event celebrated around the world on April 22 to demonstrate support for environmental protection. First celebrated in 1970, it now includes events coordinated globally by the Earth Day Network in more than 193 countries. On the Occasion of 'World Earth Day' (on 22nd April) the Eco Club Dhing College, Dhing, Nagaon, Assam, planned to celebrate the Day with some action work. The earth has enough to fulfil everyone's need but it can never satisfy everyone's greed... Everything in the world around us is built upon the Earth, grows on the Earth, or depends on the environment of the Earth in some or the other way. As we know this is the only planet where survival is possible so it becomes our duty to save our Mother Earth. With the view of educating our students, the future citizens about what we have and what we are losing by acting in ways that aren't environment friendly or energy efficient and reminding them that we need to take action now to protect our environment before it's too late. It was aimed to sensitize the issue of environment protection in the young generation. Today it is a grave concern that human had intervened a lot in the nature because of its greed for development and luxury. Due to all this technology, industrialization the nature cycle has got disturbed, recent example of nature ferocity is that of crop failure in India. On 22nd April, the programme was started by Dr. Sarat Kumar Dutta, Principal, Dhing College by planting a seedling in the College campus with students and faculty members. The programme was anchored by the Dr. Sanjeeb Kumar Nath, Coordinator Eco-Club, Dhing College Later the students planted and watered the newly anchored plants in the soil. All the students also taken the pledge to protect and water regularly to nurture the plant in a big tree. The occasion was graced by Dr. Sarat Kumar Dutta, Principal, Dhing College. He discusses the immediate need of afforestation to reduce the green house effect of excess CO₂ in the environment. Other faculty members who contributed in the occasion were Gobin Ch Bharali, Dr. Ramesh Nath & Dr. Manoj Kr. Saikia Associate Professors. The students were made aware that EVERY DAY IS AN EARTH DAY and the purpose of celebrating Earth Day is to help to keep our grass green and our skies blue with more trees and less pollution. Earth Day should be celebrated every year and on that day we should try to plant a sapling or a plant which will help us from avoiding global warming. We can make everyday Earth Day and each one of us in the College can make a difference'.

17 June: World Day to Combat Desertification at Dhing College

The World Day to Combat Desertification (WDCD) is observed every year on 17 June to promote public awareness of international efforts to combat desertification. No doubt that desertification and drought are main problems seen globally and affect all regions of the world. Let us read more about desertification and drought, how this day was decided to celebrate and what the current theme 2019 is. World Day to Combat Desertification and Drought is a unique event that remind people in the world that land degradation neutrality can be achieved when there will be cooperation at all levels, strong involvement of the community and problem-solving. This day also celebrates the progress made by the countries on sustainable land management and what should be done in the world so that land degradation neutrality will provide a solid basis for poverty reduction, food, water security, climate change, mitigation and adaptation.

Desertification is defined as the gradual degradation of fertile land into a wasteland, and in India, it is largely caused by factors such as deforestation, overgrazing, overexploitation of land and water, poor irrigation measures, poor land and water conservation measures, improper crop rotation, excessive use of agro-chemicals, forest fires, urbanisation, and climatic variations. Desertification leads to water scarcity and drought, biodiversity loss, soil erosion, food scarcity, hunger, poverty, economic instability and eventually forced migration into cities, which are already overpopulated, with little or no livelihood options for unskilled people. As much as 30 per cent of India's total geographical area is undergoing degradation, according to an ISRO-led study. Desertification can be prevented through policy interventions at local as well as national levels, with active participation of all stakeholders, especially local communities, promoting natural regeneration of ecosystems, switching to better land and water management practices, creating efficient irrigation and drainage facilities, adopting sustainable agricultural practices, and exploring alternate livelihoods to reduce the pressure on land and natural resources. Let's fight desertification and secure the future of unborn generations.

The event started 10:00am with opening remark by the The Principal, Dhing College who welcomed the Faculty members and students. He stressed to develop the skills and expertise of communities to develop local solution as well as adopt sustainable strategies of solving environmental challenges. The lecture programme started with a lecture by Dr. Ramesh Nath, Head, Department of Zoology of Dhing College on Desertification. The programme was further fruitful by short communications by faculty members Abdur Rashid, Abdul Kadir, Pratul Ch. Sarma and Bishnu Charan Nayak.

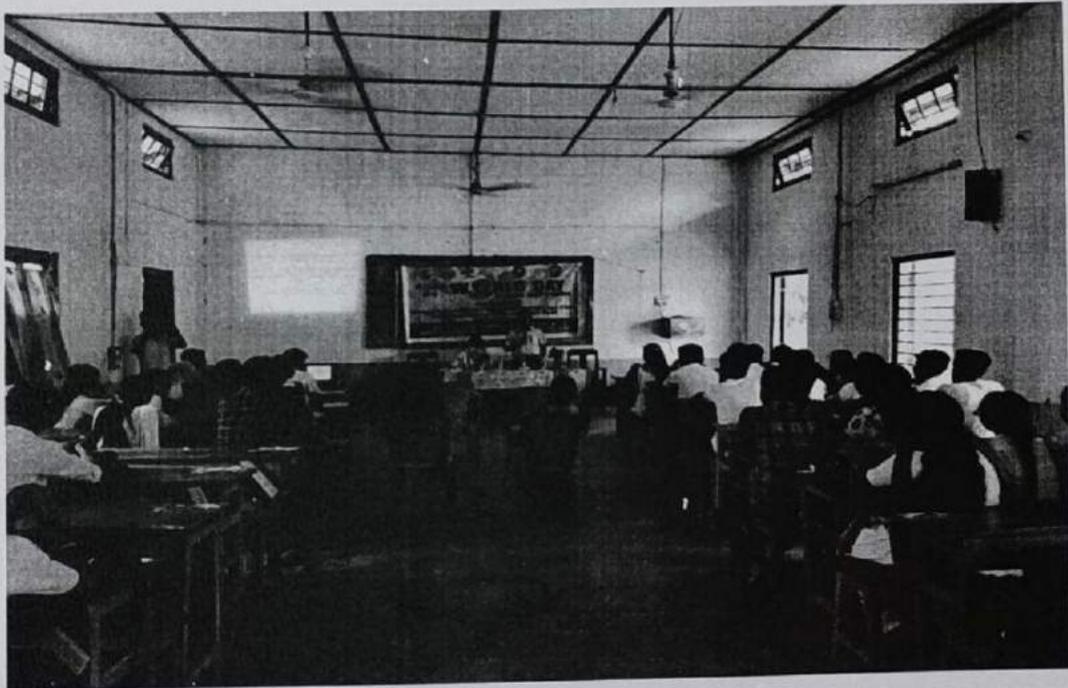

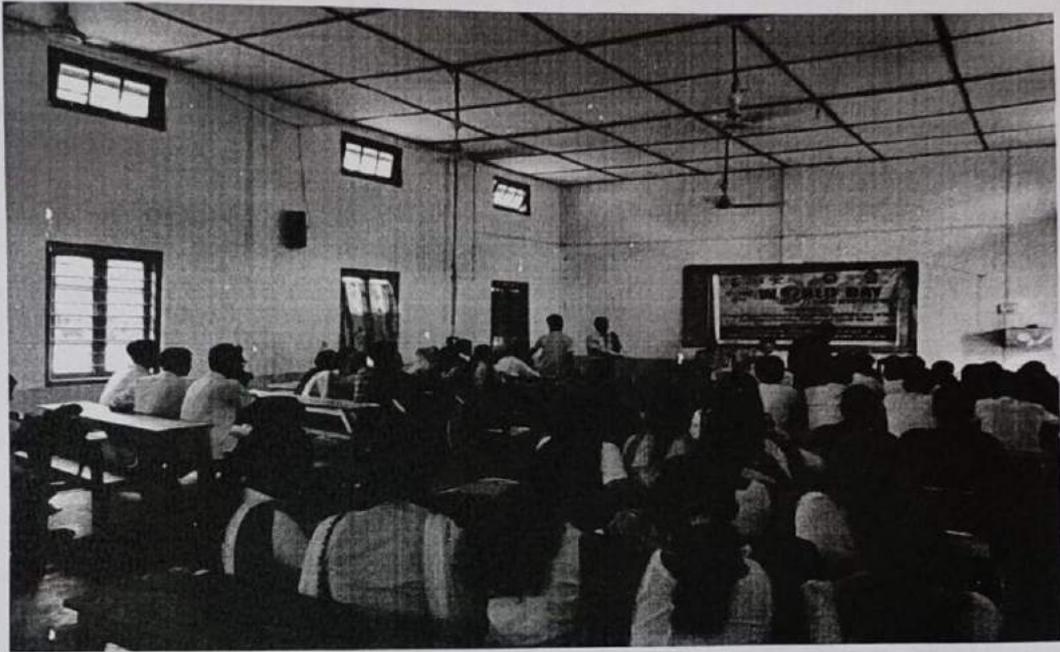

Vote of thanks and group photograph was taken to mark the end of the activities at 03; 40 pm.

5th International Yoga Day (21 June 2017, Friday) Celebration at Dhing College

Health is Wealth. Yoga helps us to shape our health in this rapid modern life style. Yoga is not only for physical health. It also is about inner peace, emotional balance and spiritual growth. Social Harmony is also created through regular practice of Yoga. Yoga way of life brings all round growth in our life. Yoga is a way of life, yes it is a complete philosophy of life based on scientific principles and it can be used effectively for Self Healing and Self Realization. Yoga is not a mere exercise technique. Rather, it is a tool that unites our mind, body, and soul assisting one on a journey to reaching the profound state of Self Realization. Yoga is a form of exercise that originated in ancient India and is practiced widely across the world today. Yoga not only enhances your physical strength but also contributes largely towards your mental health and spiritual growth.

Looking at the popularity of yoga, Hon'ble Prime Minister Narendra Modi suggested at the UN Assembly that yoga be given a special day as it is beneficial for everyone and making it a world event would help in spreading awareness about its benefits. So, on 21st June 2015. The International Yoga Day was celebrated on 21st June to bring peace, harmony, happiness and success to every soul in the world. This was a great opportunity to imbibe the value of discipline. Yoga is a mental, physical and spiritual practice that needs to be carried every day. The 5th International Yoga Day was celebrated on 21 June 2019, Friday at Dhing College with great enthusiasm and vigor. Almost 80 participants took part in that event. **Dr. Sarat Kumar Dutta, Principal, Dhing College** along with faculty, staff, NCC cadres and students participated in the event.

All the participants took part in the event with great enthusiasm. Two yoga (2) teachers accompanied by 20 trained volunteers were there to conduct the yoga practice. All the participants, Volunteers and Yoga teachers assembled in the earmarked area at 10.30am itself so as to ensure that the practice session is conducted in the most conducive manner even for the novice participant. The Yoga session started exactly at 11.00am with Prayer, and systematic practice of different 'ASANAS' of standing, sitting and laying positions (both lying on back and reverse) smoothly changing in succession under the instructions of Yoga teacher and supervision of trained Volunteers. During the course of "Yogabhyas", the Yoga teacher also narrated the usefulness of different "Asanas" as a precautionary measure, in curing many Diseases and the usefulness of Yoga in the overall wellbeing of a human being. The entire "YOGABHYAS" lasted for an hour and ended at 11.30 am with Oath by all the participants that they will continue to practice Yoga for keeping their Body and mind in healthy, stress-free and cheerful condition.

After the Yoga session appropriate refreshments were served to all the participants.
