

## **WASTE MANAGEMENT COMMITTEE REPORT**

➤ A huge amount of waste is generated from various departments, wing, canteen, Laboratory, Hostel, e-waste etc. Therefore its proper disposal & management is very important in achieving a higher level of environmental performance. A large number of dustbins have been installed in the College campus to maintain the wastes. Recycling and reusing helps mainly to keep the environment clean and environment friendly. The wastes are separated into biodegradable and non-biodegradable wastes. The biodegradable wastes are collected and are used as compost in the cultivable land of the college. The non-biodegradable wastes are separated and are collected by the local Dhing Municipality Board ( DMB) authorities to be transported to municipality dumping ground. As regards to the e-waste we have system of separately store the e-waste in an isolated room. Last year college has sold out the e-waste and has been able to earn an amount of **Rs. 2.18 Lakhs dated 17/12/2021**

➤ **Disposal practices adopted**

- Separation of biodegradable and non-biodegradable wastes
- Biodegradable wastes are used as compost.
- Non-biodegradable waste is collected by municipal authorities.
- **Recommendations**
- Reduce use of plastic. Make an effort to make the college plastic free campus.
- Minimum use of paper.
- Dont use open fires to dispose of wastes
